

Privacy Policy

Application: Panelka Jump | **Effective Date:** July 30, 2026 | **Developer:** mshapkov-afk

This Privacy Policy applies to the mobile game **Panelka Jump** (hereinafter referred to as "the Application"), developed by **mshapkov-afk** ("we", "us", or "our"). This document explains how information is collected, used, and safeguarded when you download, install, and play our game via Google Play Store or Apple App Store.

1. Information Collection and Use

We respect player privacy. Panelka Jump is designed as a standalone mobile game. We do not require users to create an account, register, or provide personally identifiable information (such as your full name, home address, or phone number) to play the game.

2. Data Collected Automatically & Third-Party Services

While we do not directly collect personal data, the Application may utilize integrated third-party SDKs and service providers to support game analytics, leaderboards, and advertisement delivery. These services may automatically collect non-personal and technical data, including:

- **Device Information:** Device model, operating system version, unique device identifiers (e.g., IDFA for iOS, GAID for Android).
- **Gameplay & Analytics Data:** High scores, game progress, session duration, crash reports, and performance metrics.
- **Network & IP Address:** Coarse location data derived from IP addresses for ad geographic targeting.

The third-party service providers utilized by the Application include:

- **Google Play Services / Game Center:** Used for achievements, leaderboards, and cloud save functionalities. ([Google Privacy Policy](#) / [Apple Privacy Policy](#))
- **AdMob / Unity Ads (if applicable):** Used to display in-game advertisements. ([AdMob Privacy Info](#))
- **Firebase Analytics / Unity Analytics (if applicable):** Used to analyze game performance and diagnose technical issues.

3. Cookies and Tracking Technologies

The Application does not explicitly use traditional browser cookies. However, third-party advertising or analytics SDKs incorporated into the Application may use mobile identifiers or similar technologies to collect information for personalized advertising or reporting.

4. Children's Privacy (COPPA & GDPR Compliance)

We are committed to protecting children's privacy. The Application does not knowingly collect or solicit personal information from children under the age of 13 (or 16 in certain EU jurisdictions). If a parent or guardian becomes aware that their child has provided personal information without consent, please contact us immediately so we can promptly delete such information.

5. Data Safety & Data Deletion Rights

Google Play & App Store Data Rights Statement

Because Panelka Jump does not collect, store, or process user accounts or personal profiles on external developer servers, we do not maintain personal user records. All local game progress (e.g., high scores) is stored locally on your physical device or securely via Google Play Games / Apple Game Center. You may clear all local data at any time by uninstalling the Application or clearing its app data in your device settings.

6. Security

We value your trust in providing non-personal technical data. We strive to implement commercially acceptable technical and organizational measures to protect your device data, though no method of transmission over the internet or electronic storage is 100% secure.

7. Changes to This Privacy Policy

We may update our Privacy Policy from time to time. You are advised to review this page periodically for any updates. Changes are effective immediately upon posting to this URL.

8. Contact Us
